

Anastasiya Kaskevich

Frontend Developer

My first steps and interest in programming began and strengthened at school and university. After graduating from university I am working out as a website editor and every day I spend learning something new. I hope that my aspiration and perseverance will help me achieve my goals and become a professional specialist. Now I am actively looking for a job as a frontend developer and opportunities to improve my skills which include html, css, javascript, typescript, react, redux.
